5-year warranty

Our aluminium gates are naturally corrosion resistant, low maintenance and supported by a 5-year warranty on the structure and finish.

Driveway gates

Aluminium, double, swing, residential gates, cover an opening spanning from 3000mm - 4500mm, with heights from 1000mm to 2200mm, and supplied with 4 x wall mounted hinges and 2 x Floor mounted hinges as standard.

Pedestrian gates

Aluminium pedestrian gates cover an opening spanning from 800mm to 1200mm, with heights from 1000mm to 2200mm. Supplied with 2 x Adjustable wall mounted hinges, 1 x Floor mounted hinge, gate handle, lock & keys and full-length lock keep as standard.

WHY ALUMINIUM?

Elegant, stylish and aesthetically pleasing to the eye – aluminium is the perfect solution to enhance and protect your property.

Our designs bring a contemporary twist to the traditional style, making them suitable for all types of properties.

Electric Gates Glasgow can also accommodate all types of automation such as underground operators and automatic rams.

All aluminium gates have a hard-wearing, polyester powder-coated finish and don't require galvanizing so you get a super smooth finish.

We offer both traditional and contemporary style of aluminium gates as standard.

Why aluminium?

- ✓ Naturally corrosion resistant. Aluminium oxide generates a rust-resistant shield, suitable for a saline environment.
- ✓ Aluminium is a perfect material for the fabrication of gates - strong, stable and lighter than traditional materials.
- ✓ Naturally low maintenance - simply wash down with soapy water and rinse. Available in a variety of sizes and colours for a beautifully aesthetic finish.
- ✓ Eco-friendly - aluminium is one of the most environmentally friendly metals on earth and is called the green metal because it is a very environmentally friendly metal. Recycling this material saves 95% of the energy required to produce aluminium from raw materials.

The Shuna
